

# SHURJOINT PIPING PRODUCTS

A Shurjoint Group Company

Press Release (Sept. 22, 2005)

## Shurjoint Adds Metric (ISO) Bolts & Nuts on ISO Pipe Size Couplings

Dear *Shurjoint* customers;

In the past *Shurjoint* grooved couplings have been supplied with UNC bolts and nuts. We are pleased to announce that we are now offering metric (ISO) bolts & nuts for most grooved couplings of ISO pipe sizes. Metric (ISO) bolts & nuts are available in sizes M10, M12, M16 and M20 and feature a gold chromate color. This change will allow for the use of ISO standard spanners and or box wrenches. The difference in bolt & nut color will help clearly differentiate between metric (ISO) standard couplings and similarly sized U.S. standard couplings.

	Housing coating	Bolts & Nuts	Spanner Size	
			Bolt/Nut Size	Spanner Size
U.S. (IPS) pipe sizes	Orange enamel 	UNC / silver chromate color 	3/8"	11/16"
			1/2"	7/8"
			5/8"	1 1/16"
			3/4"	1 1/4"
Metric (ISO) pipe sizes	Red enamel 	ISO / gold chromate color 	M10	17 mm
			M12	19 mm
			M16	24 mm
			M20	30 mm

All other bolt/nut sizes are UNC threaded in silver chromate color.

We have just begun making this change to the new ISO bolts and nuts and thus you may receive mixed shipments until existing inventories are exhausted. Your patience and understanding are appreciated during this transition period.

Should you have any questions, please contact *Shurjoint* or to your local distributor.

Sincerely,

Howard Hagiya  
President
